

## Learner Schedule Explanation

2008-2009

It will be up to the RC and the family to decide how their individual classes fit into the framework. We believe that most subjects can easily be included in one of the general topic areas listed on the Learner Schedule.

The topic areas and the classes that *could* fall under those categories are listed below. This list is provided for clarification purposes only and is not expected to include all possible topic areas or classes.

- A. LANGUAGE ARTS (grammar, English, literature, reading, writing, penmanship, phonics, etc.)
  
- B. MATHEMATICS (elementary math, numbers, arithmetic, algebra, geometry, trigonometry, calculus, etc.)
  
- C. SCIENCE (earth science, astronomy, chemistry, animal science, physics, physical science)
  
- D. ARTS & HUMANITIES (social studies, history, geography, philosophy, painting, sketching, dance, drama, voice, band, crafts, etc.)
  
- E. PHYSICAL EDUCATION (organized sports, swimming, skiing, snowboarding, hiking, kayaking, etc.)
  
- F. LIFE/VOCATIONAL SKILLS (job skills, home economics, chores, parenting, field trips, RC time, leadership, cosmetology, apprenticeships, mechanics, work study, etc.)
  
- G. ELECTIVES (anything else that does not handily fall in one of the other subject areas)
